Projects

Job Portal Application (MERN Stack)

Developed a full-stack job portal where users can post jobs, search for jobs, and apply to get hired.

Implemented user authentication, job filtering, and a responsive UI for a seamless experience.

Live Chat Application (MERN Stack, Socket.IO)

Built a real-time chat application using Socket.IO and MERN stack, enabling instant messaging

between users with a clean, responsive interface and secure communication.

Instagram Clone (MERN Stack)

Created a social media platform where users can post images, like, comment, and follow others,

replicating core Instagram features with responsive design and secure authentication.

Food Delivery Application (MERN Stack)

Developed a food ordering and delivery app where users can browse menus, place orders, and track

deliveries in real time, with secure payment integration.

E-Commerce Shopping Website (MERN Stack)

Built a complete online store with product listings, shopping cart, checkout, and payment gateway

integration, featuring responsive design and user-friendly navigation.
